

## Multi- purpose work and machine table master cut 1000

# master cut 1000

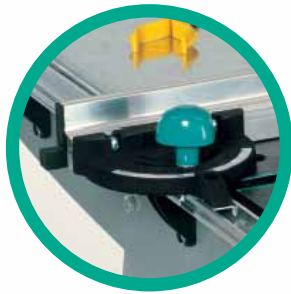

## The perfect combination of sawing and milling table, workbench and joiner's

Art.-No. 6165 506

This highly functional, compact solution brings together a precision machine table and universal workbench. The master cut 1000 is a safe and precise sawing and milling table, or can be used as a sturdy workbench or joiner's bench – well-appointed and with excellent functionality.

### Sawing and milling table:

- for all jigsaws and circular saws with a cutting depth of up to 66 mm
- complete kit includes split insert, push stick, switch clamp and safety switch
- for all routers in combination with parallel stop and curve guide

With pre-adjusted angle positions for a fast and easy adjustment.

### Workbench and joiner's bench:

- solid, impact resistant MDF work surface, 455 x 540 mm

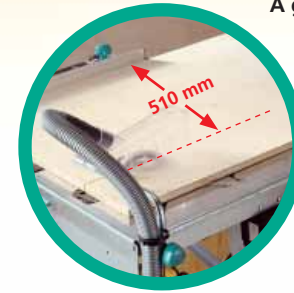

Foot buffer ensuring a secure stand in all positions. Integrated wheels for a high level of mobility.

Power tools are easily fitted thanks to top access.

Angle guide which can be set to any angle between +/- 60°, for precise diagonal and mitred cuts.

A guide rail along the complete table length for wider cutting widths.

Table overhang forms a clamping area for power tools and workpieces.

Integrated vice and four additional plastic jaws for securing flat workpieces (max. 125/525 mm).

### Smart, sturdy base frame:

- robust and sure footed
- tool rack with holder for push stick
- folded up and stowed compactly away in no time at all, in just a couple of movements

Working height: 865 mm  
Bench top: 855 x 540 mm  
Weight: 24 kg

# Intelligent accessories for your master cut 1000:

**wolcraft®**

6152 000  
**Power tool holder**

- for 43 mm drills

6171 000  
**Vice jaws**

6176 000  
**Quick clamps**

- clamping tool to hold flat workpieces up to a thickness of 35 mm and round materials up to  $\varnothing$  35 mm

6115 000  
**Curved milling guide**

6114 000  
**Parallel milling fence**

6119  
**Roller trestle**

The practical extension for sawing tables and work benches

- with infinite height adjustment from 700 - 1.080 mm

Max. load:  
60 kg  
Resting width:  
300 mm

6102  
**Multifunctional rest and roller trestle**

- infinitely variable height adjustment between 700 and 1000 mm
- can be folded together for space-saving storage

Max. load: 50 kg  
Resting width: 300 mm
